

Attachments

1. Auger:

- Suitable for drilling holes in various soil types and conditions
- Hydraulic-powered for efficient performance
- Available in various diameters and lengths to suit specific project requirements
- Compatible with a wide range of heavy equipment, including skid steers, excavators, and backhoes

2. Auger Bits:

- Designed to work in conjunction with auger attachments
- Available in various diameters and lengths for different hole sizes and depths
- Constructed from heavy-duty materials for enhanced durability and long-lasting performance
- Replaceable teeth for easy maintenance and extended service life

3. Pallet Forks:

- Ideal for material handling and lifting applications, such as transporting pallets, lumber, and other bulky items
- Adjustable fork width to accommodate various load sizes
- High load-bearing capacity for efficient and safe operation
- Compatible with skid steers and tractors equipped with front loaders

4. Brush Hog:

- Designed for efficient vegetation management, including cutting and mulching grass, weeds, and small trees
- Hydraulic-driven cutting system for powerful performance
- Available in various cutting widths to suit specific project requirements
- Compatible with tractors and skid steers

5. Hoe Ram/Breaker:

- Suitable for demolition and breaking tasks, such as breaking concrete, asphalt, and rock
- Hydraulic-powered for efficient and powerful performance
- Available in various sizes and impact energy levels to suit specific project requirements
- Compatible with excavators and backhoes

Each of these attachments is designed to enhance the versatility and productivity of your heavy equipment, ensuring you can tackle a wide range of tasks with ease.

Equip your machinery with these attachments, available at T&T Heavy Rentals. **Save up to 80% on attachment(s) with a machine rental!**
