

Barreto 30-SG Stump Grinder

Engine Options:

- 31 HP Briggs & Stratton Vanguard V-Twin gasoline engine

Dimensions:

- Height: 49.5"
- Length (head straight): 98"
- Width: 35.5"
- Weight: 1,700 lbs

Capacities:

- Forward ground speed: 290 ft/min
- Reverse ground speed: 180 ft/min
- Hydraulic flow to head: 13.3 gpm

Performance:

- Cutting wheel: 19.2" diameter with 16 teeth
- Cutting depth: 12"
- Cutting height: 32"
- Head swing: 134°, covering a 99.7" arc

Hydraulic Reservoir:

- 14 gallons

// Track System:

- 7.1" wide tracks with 472 sq. in. ground contact

Features:

- Track Design: A time-tested track system provides superior stability and absorbs impact, allowing for better control over rough terrain.
- Articulating Cutting Arm: The articulating arm allows for 134° of head swing, enabling wide cutting arcs without the need for frequent repositioning.
- Durability: Equipped with a 19.2" cutting wheel with 16 heavy-duty teeth, the grinder can handle even large stumps efficiently.
- Robust Hydraulic System: Gear pumps connected to the engine drive key components such as the cutter wheel and track tilt, ensuring smooth and reliable performance.
