

## New Holland E37C Mini 3.5-ton Excavator

### Engine:

- Typically a diesel engine for reliable power and performance.
- Manufacturer: Yanmar
- Power Output: Generally in the range of 24 to 30 horsepower

### Dimensions:

- Overall Length (transport): About 16 to 18 feet (4.9 to 5.5 meters).
- Overall Width: Approximately 5 to 6 feet (1.5 to 1.8 meters).
- Height (top of ROPS): Around 8 to 9 feet (2.4 to 2.7 meters).

### ✓ Performance:

- Digging Depth: Usually around 10 to 12 feet (3 to 3.7 meters).
- Dump Height: Typically 11 to 13 feet (3.4 to 4 meters).
- Bucket Breakout Force: Often around 7,000 to 8,000 pounds (3,175 to 3,629 kilograms).
- Arm Digging Force: Generally around 4,000 to 5,000 pounds (1,814 to 2,268 kilograms).

### Capacities:

- Versatility: Effective for tasks in construction, landscaping, utility, and municipal jobs.
- Compact Size: Ideal for working in confined spaces due to its zero tail swing design.

### Attachments:

- Buckets: Various types including digging, grading, and ditching.
- Hydraulic Breakers: For demolition and hard surface break-up.
- Augers: For drilling and boring applications.
- Grapples and Thumbs: For material handling and sorting.

### Features:

- Operator Cab: Provides comfort features such as adjustable seating, climate control, and excellent visibility.
- Safety Features: Equipped with ROPS and FOPS protection, along with boom angle and position sensors.
- Controls: Easy-to-use controls and intuitive joystick handling.
- Telematics: Available for some models to help manage machine health and logistics.
- Optional Features: May include additional lighting, power outlets, or air/water lines to the cab for enhanced operator convenience.
