

Barreto 1324TK Trencher

🔧 Engine:

- Model: Honda GX390
- Horsepower: 13 HP
- Fuel Type: Gasoline
- Starting System: Electric start

📏 Dimensions:

- Length: 92.5 inches (2.35 meters)
- Width: 35.5 inches (0.901 meters)
- Height: 52.2 inches (1.32 meters)
- Weight: Approximately 1,425 lbs (647.7 kg)

👤 Capacities:

- Trench Depth Options: 24 inches
- Trench Width Options: 4 or 6 inches
- Track Width: 7.12 inches
- Total Ground Contact: 262 square inches
- Hydraulic Reservoir Capacity: 8.13 gallons

↔ Ground Drive Speed:

- Forward: 180 feet per minute
- Reverse: 90 feet per minute
- Digging Chain Speed: 260 feet per minute

✓ Performance:

- Hydraulic Drive System: Provides consistent power to the tracks and digging chain, ensuring efficient trenching.
- Adjustable Trenching Controls (ATC): Allows individual adjustment of track speeds for precise trenching, especially on uneven terrain.
- Independent Floating Track System: Adapts to varying ground conditions, maintaining stability and traction.

⚙️ Features:

- Boom Tension Adjustment: Facilitates easy maintenance and optimal performance.
- Compact Design: Allows for maneuverability in tight spaces while providing stability during operation.
- Safety Features: Includes a safety clutch that stops motion when released, enhancing operator safety.
