

Countryline 40-Ton Log Splitter

🔧 Engine:

- Model: Kohler Command PRO CH440
- Horsepower: 14 HP
- Fuel Type: Gasoline
- Starting System: Electric start

📏 Dimensions:

- Length: 94.9 inches
- Width: 50.4 inches
- Height: 47.2 inches
- Weight: 781 lbs

👉 Capacities:

- Splitting Force: 40 tons
- Maximum Log Length: 26 inches
- Maximum Log Diameter: Up to 40 inches
- Cycle Time: 9.5 seconds
- Operation Positions: Horizontal and vertical

✓ Performance:

- Hydraulic Pump: 25 GPM 2-stage pump
- Hydraulic Reservoir Capacity: 16 gallons
- Auto-Return Valve: Speeds up the splitting process by automatically returning the wedge to the starting position
- Cycle Time: 9.5 seconds, allowing for efficient splitting operations

⚙️ Features:

- Vertical and Horizontal Operation: Provides flexibility to handle various log sizes and user preferences
- Auto-Return Valve: Enhances efficiency by automatically retracting the wedge after a split
- Durable Construction: Built with high-quality materials to withstand rigorous use
- Safety Features: Includes safety guards and easy-to-reach controls to protect the operator during use
- Towable Design: Equipped with a 2-inch hitch coupler for easy transportation to different job sites
