

MODEL 65XP

6" Capacity Hand-Fed Chipper

The Bandit® Model 65XP is an outstanding chipper for both tree services performing medium-duty trimming and rental stores looking for a **high-production, low-maintenance rental unit**. A wide throat opening and powerful horizontal feed wheels help this overachieving chipper process stubborn branches and small trees without difficulty. And the **durable construction** means this chipper will withstand the daily stress of chipping for years to come.

COMPACT AND POWERFUL

The Model 65XP is a powerful, compact unit designed for tree care services, rental companies, and property owners catering to brush cleanup, tree pruning, and backyard applications. It is easy to tow and maneuver, so even light trucks can easily pull and position this chipper around jobsites. The Model 65XP can quickly and easily process a steady diet of trees up to 6" in diameter.

PROCEED TO FEED

From hard-to-manage limbs to stringy material, the 65XP can crush and flatten material into an opening nearly twice as wide as competitive units at a fast feed rate. Material is chipped at 90-degree angle to the chipper disc, making it effective at processing brushy or viney material. Trimming and extra chain saw prep work can be reduced. And a sloped infeed tray allows material to flow smoothly into the chipper.

MAXIMIZE YOUR UPTIME

The most common maintenance items are easy to access on Bandit chippers, so daily maintenance is quick and simple. Bolt-in knives are easy to change through the chipper hood, and all service areas are conveniently located, including all grease points. .

EASY, INTUITIVE CONTROLS

With gasoline engine options and straightforward controls, using the Model 65XP will be easy for rental customers or seasoned chipping professionals. Users will enjoy the simple operation, easy-to-feed feed system, and the directional control of the broadcasted chips, which offer full control and an unhindered approach to getting the job done quickly and tidily.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and over 60 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

MODEL 65XP FEATURES

- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
